

## **Serum Vitamin C launches its New Website**

*The secret to skin rejuvenation is finally here. Learn more about enjoying the benefits of Vitamin C serum and how it helps protect and renew your skin.*

Melbourne, Victoria, Australia – 21 August 2013 – Serum Vitamin C has recently launched its new and exciting website [serumvitaminc.net](http://serumvitaminc.net). The website contains information about how to achieve a healthy, even-toned skin using Serum Vitamin C.

Vitamin C - known as ascorbic acid or ascorbate is a nutrient that goes beyond being a cure for the common cold, building strong bones, and teeth. Research showed that Vitamin C is also an anti-oxidant with benefits not just for the body but for the skin as well.

This nutrient is the key to the production of a collagen protein that helps in the growth of new cells and blood vessels. It also helps create skin tissue and ligaments which aids in skin repair. As an anti-oxidant, it slows the rate of free radicals that damages collagen which can cause skin dryness, fine lines, and wrinkles.

When applied on skin, Vitamin C serum helps protect the skin from damage after sun exposure to ultraviolet rays. Vitamin C serum rejuvenates aged; photo damaged skin, and also treats dark spots.

The common food sources of Vitamin C are oranges, guava, kiwi, and tomatoes. Traditionally in order to get the daily needed amount of Vitamin C, you must consume it from food and nutrients. The good thing is vitamin c serum is now conveniently available. You can now enjoy the Vitamin C benefits that are readily available in vitamin C serum and vitamin C creams. However, in choosing a brand, you have to pick the product that can give you the maximum benefits of using vitamin c serum.

At [serumvitaminc.net](http://serumvitaminc.net), you can learn more about vitamin c and what it can do for your skin and face. The website is simple, it can be easily navigated but it contains essential facts about the use of Serum Vitamin C and its benefits for your skin. Serum Vitamin C made it conveniently for you to learn more about the product and how you can order it as well. Visit [serumvitaminc.net](http://serumvitaminc.net) now and start your Vitamin C Serum regimen today.
